**ADDITIONAL INFORMATION**

- The COVID testing lab will be transitioning on Monday 01/17/22 to new fully Covid-19 vaccinated requirements. Individuals who are fully vaccinated will be those individuals who have completed their three shot series for the Covid-19 vaccine. Any breakthrough cases will be reported on this premise.
- With the surge in the Omicron variant, the vaccinated versus unvaccinated information will not be reported because vaccination status does not affect positivity rate. It will still be captured in Maxient. We know people are under-reporting a positive test and we have no way to verify if they are vaccinated if they do report. However, it is overwhelmingly clear in the data that the students are still mostly unvaccinated while our employees are.
