APSC Has Faculty Increase of 14

Science Department To Add Physics Major, Minor

Austin Peay is once again expanding its teaching facilities by increasing the already well-developed Science Department.

Mr. Milburn Mayfield, who heads physics at A. P., hopes a minor and major will be offered as soon as possible. At the present time, a junior or senior transfer student is unable to take the advanced courses; but by the time the incoming freshmen reach their junior and senior years, it is expected there will be a sufficient number of interested students that classes will be available.

General education physics is offered to all but pre-professional students. For pre-engineering and premedical students in particular, there is general physics. Advanced physics courses are tendered, but so few students enroll in these classes that those who desire to major in physics must transfer to some other institution.

The effort required to obtain a degree in physics is well worth the time spent. A student majoring in physics must take enough math to have a major in it, therefore a degree in physics provides double opportunities since men and women well qualified in math are also in large demand. A great many teachers of physics are needed in schools and colleges across the country. The U. S. Government, which needs them for national defense, and general industry are in need of physicists for whom they offer a high starting salary and chances for advancement. There are added opportunities in that one is eligible to go to graduate school to prepare for even finer positions. A B. S. degree in physics does not prepare a person for high-level research, but it does prepare one well enough that many industries and corporations are seeking qualified personnel. Mr. Mayfield feels there are many people who would be happy in physics if they were oriented and suggests that they pay him a visit, if interested.

New Volume Of Campus Writing

The wide success of an anthology of work from the campuses of America's colleges and universities, New Campus Writing, published in 1955, has resulted in a second volume of college writing. New Campus Writing II, published simultaneously in August, 1957, by G. P. Putnam's Sons in its hardcover edition and Doubleday Books, Inc., in a paperback edition. These two volumes point to the phenomenal growth of the writing centers and workshops of universities and colleges across the nation. And this in turn appears to prove that the new writers, the writers of tomorrow, is most likely to be undertaking the

REGISTRATION

The estimated campus enrollment of the 1957-58 school term is a 15 percent increase over last year's registration, according to President Harvill.

The exact figures are not available for publication, but there is also an increase in the freshman class. The Fort Campbell classes increased this year, and registration is still incomplete for evening classes.

Nursery School Newest AP Addition

In the southwest corner of Austin Peay campus stands a large white frame house. To a passer-by there is nothing spectacular about its appearance. It looks like any other American home; but if he were to step inside he would find himself in the middle of a laboratory. A laboratory where one will not find the white-coated chemist fumbling with his test tubes or here his jargon spoken. Instead he will hear the laughter and crying of small children, see them playing eating, and sleeping. This is the Austin Peay Nursery School, which has been set up to provide a laboratory so that majors in Home Economics, Psychology, and Education can study and better understand the habits and behavior of small children.

Starting this fall twelve children, ages three to four, will enter the school every day at one p. m. and remain until nine each evening. During this time they will be observed from an observation booth through a one-way glass screen by some 100 students, their behavior being carefully studied. In explaining the purpose of the school Dr. Sam Saltzer, Associate Professor of Psychology, said: "The nursery school at Austin Peay is to be a laboratory school. Its purpose is to provide a situation where children can be observed and studied for both educational and research purposes. In this sense the nursery school does the same job as a laboratory in Physics, Chemistry, or Biology."

"Of course the school will be using small preschool children. Consequently, every safety precaution and health measure will be taken for the welfare of the children."

"The goal of the school is to provide an ideal situation for the study of children, a pre-natal situation which will provide the best for young children and serve as a school for the training of nursery school teachers. With the development of the school program, Austin Peay has made a great stride in meeting our Home Economics, Psychology and Educational programs."

study of writing. Hence the two publishers have collaborated with the editors of New Campus Writing in setting up the New Campus Writing Fellowship.

These Fellowships are designed to give the young writer the time to undertake major work at that stage of his development when he needs time and money most.

Left to Right, Front Row: Boehms, Brotherton, Brown, Mrs. Browne, Mrs. Chambers, Cotham; Back Row: Crabtree, Fitzpatrick, Mayfield, McClintock, Saltzer, and Foote.

14 new faculty members have been added to the Austin Peay staff.

Charles Boehms, instructor in Biology from Hickman Co., Tenn., has his B. S. and M. A. from Peabody College.

George Lee Brotherton, instructor in Mathematics with a B. A. from Carson Newman College and a M. A. from Peabody College, is from Jefferson City, Tenn.

Biology instructor, Floyd E. Brown is from Clarksville, and has his B. S. from Austin Peay State College, and a M. S. from the University of Tennessee.

Mrs. Roland Browne, instructor in Home Economics (Nursery School) has a B. S. and M. A. from Peabody College and is from Clarksville.

In addition to a B. S. from Austin Peay State College, Mrs. Rachel Chambers, instructor in Library, has 15 years library science experience in the Lawrence County school system and the Clarksville City Schools.

Also from Clarksville is James Cotham, III, instructor in Business with a B. S. from Austin Peay State College.

William Crabtree, instructor in Mathematics from Louisville,

Tenn., has a B. S. and M. A. from Austin Peay State College and is a candidate for M. S. Degree from Ala. Polytechnic Institute. He also has 6 yrs. of experience in the Tennessee public schools.

Clint Daniels, from Waverly, Tenn., has a B. S. from Austin Peay State College and 10 years of public schools experience. He is an instructor critic teacher at the Demonstration School.

The new associate professor of Physical Education, Miss Mary Fitzpatrick, is from Lewisburg, Tenn., with a B. A. from Middle Tennessee State College, and a M. A. from Peabody College. Miss Fitzpatrick was associate professor at East Tennessee State College and is now a candidate for a Ph. D.

Robert H. Foote, instructor in Physical Education from Birmingham, Ala., has a B. S. from Howard College and a M. A. from Peabody College. He was teacher and coach at Tarrant High, Tarrant, Ala., and former instructor and head coach at Howard College, Birmingham Ala.

Mrs. Nell Harris, instructor critic teacher, Demonstration School is from Dover, Tenn., has a B. S. from Austin Peay State College,

and has 11 years of teaching experience.

Milburn Mayfield, association professor of Physics, is from Island, Ky., and has an A. B. and B. S. from Western Kentucky State College, and a M. S. from the University of Florida. He has had experience in the Elementary and Junior High in Kentucky school system and as assistant professor of Math and Physics at Mercer University.

Robert McClintock, instructor in Psychology with a B. S. from the University of the South and a M. A. from Peabody College and from Abbeville, South Carolina and is a candidate for a Ph. D. He was the former head of the Math Department at Brevard College, Brevard, N. C., and part-time instructor at Middle Tennessee State College.

Sam Saltzer, associate professor of Psychology from Cleveland, Ohio, has a B. S. from Western Reserve University, M. A. from New York School of Social Work and an Ed. D. from Teachers College, Columbia University. He was association professor at the College of Home Economics, University of Tennessee and taught one year at Vassar.

Plans For Annual Well Underway

The 1958 "Fairwell and Hall" is underway with annual subscriptions beginning at registration. An organizational meeting of the staff was held Wednesday, September 25, centering upon the specific duties of staff positions and general discussion of the "Fairwell and Hall" with new staffers. A Nashville trip to the publisher's for making the complete annual layout is scheduled.

Individual photographs for the class sections were taken by Mr. Dancy September 25 and 26 in the conference room. Photos for Saturday and evening students will be scheduled in October.

Welcome Freshmen

We're glad to have you, freshmen; pull up a small corner of the campus and make yourself at home.

You've been here just long enough to be vaguely familiar with the campus, slightly familiar with the faculty and administration, acutely familiar with the rules and regulations of the campus, familiar enough with the Student Center, and not half as familiar as you would like to be with the cute members of the opposite sex.

Seriously, we're glad to have you and extend to you our heartiest welcome and offer to help in any way possible.

We're glad you decided to come to school, and we think you made a big step, but we also realize that you know this. We will say that we're glad you decided Austin Peay State College was the college for you. We don't think you will be sorry. It is a college with a future and you compose a part of its immediate future. This future is composed of a huge number of small things waiting to be shaped into big things.

The principal job of you as a student is to learn. This learning is accomplished by study, research, and with the help of books. But, tied into this is another type of learning, so closely allied with the other it is sometimes hard to draw a line. This is the learning one gets from the close association of living in a dormitory, the pure enjoyment of a good laugh over a cup of coffee in the Student Center, the long talks that start out just as a way to pass the time and end with exchange of deep thought, the fireweed that comes from good hard work on a float, and the personal triumph of seeing a very important, but small dream come true in the form of a grade, date, or just maturity. This part of learning can sometimes be the hardest, but it is also the hardest to forget. Of course, along with the nicer experiences will come the hurts, but healing usually follows a wound.

Freshman is ready to furnish you, as the Freshman class, every phase of the learning process. Enjoy yourselves, become a part of the institution and you will leave a part of yourselves that will be as important to the campus as the Tower Clock.

Plea To The Clubs

Homecoming is just a little over a month away. We all realize the work it takes to have a successful Homecoming, and we all want this year's Homecoming to be as good if not better than last year. This will be a hard job. Let's get the clubs organized and active in all phases of school work this year as soon as possible. Club presidents should soon be calling a meeting of the clubs to work out the plans for the year and fix a meeting date and get that date on the calendar.

What Happened?

Austin Peay has always been able to look at its cafeteria and the food served in the cafeteria with pride. After just a few days of school, there seems to be a question -- what has happened to the food? We understand that with the high cost of living and especially the cost of food, prices could be expected to go up, but certainly the quality of the food should not go down. The cafeteria has always been one of the assets of the college, and we wonder what could have happened to make such a difference in the food.

Question

Why did the price of coffee go up to 5 cents in the Student Center when the market price of coffee went down?

LITTLE MAN ON CAMPUS

By Dick Biber

"THAT'S MR. HAWKICK—HE'S IN CHARGE OF FRESHMAN ORIENTATION."

"GEE, ERVIN, WHY DIDN'T WE THINK TO BRING A HAMMOCK?"

- space filler -

By Don Alms

It had taken me several minutes to gather my gear and get out to the bus. The rest of the team was already aboard and waiting for the coach to come back. I threw my duffle bag to one of the managers on top of the bus and he packed it down with the others. I got on the bus, found a seat and helped the rest of the team wait for the coach.

As soon as he arrived, the driver started down the drive and out on the highway. Someone asked how far it was to Springfield and was told it was about seventy miles. We were to play a scrimmage game with Springfield at which they were to dedicate their new field. We were even dressing in our scrimmage uniforms.

When we arrived at the Springfield Gym we all climbed out and stood around while the coach talked to the man who met us. We were shown to the dressing room and started getting dressed.

I put on my shoulder and hip pads and my jersey. I reached into my bag for my shoes and socks and pulled them out. I sat down and put one sock on and reached into my shoe for the other one. I was out of luck. I brought only one sock with me so I ended up using my regular sock. I put it on and then my pants. I got a shoestring from one of the managers and threaded it through the belt loops on my pants. I tucked in my jersey and put on my shoes.

"Let's go" broke the tension and everyone jumped up and filed out of the dressing room and out to the field. We ran out on the field, and took our warmup exercises. The coach called us to the side line and called out the starting lineup. I didn't even receive honorable mention so I made sure that I had a good seat on the bench. About the time I got seated I had to get up again -- for the kickoff.

We were receiving and James was standing very close to his goal line. The kick went right to him and he tucked it under his arm and started up field. He got to the forty yard line before half of the Springfield team hit him. Everyone got up but James. He rolled over and back and the referee called the coach out. Coach Williams ran out to look and motioned for the stretcher. He came back to the bench and looked up and down.

He took a deep breath, exhaled, and slapped his leg as if to give up. Then he called my name. I jumped like a rabbit and started for the field. The coach grabbed my arm and said something but I was so excited I didn't hear it.

I took my place in the huddle and heard the QB say: Forty four on two. We broke from the huddle, and lined up. The center came to me and I started around my own right end. I got a yard or two before someone lowered the boom on me. I felt like every bone in my body was broken. I made the effort to get up and much to my surprise I made it. I started back to the huddle and noticed that the shoe string which I used as a belt had been broken and my pants were extremely loose. I took my place in the huddle and heard the QB say 45 and everyone ran up to the line of scrimmage. I got the ball again and ran to my left. Someone also missed a block on the end and he managed to get one hand on my trousers and hold on and it spun me around. His hand slipped off and I was on my own again. There were two or three blockers in front of me and we started down field. There were only two defensive men still on their feet and when they came after me, my interference took them out of the play and there was only thirty five yards between me and a TD.

This was the happiest day in my life. My first high school game and I was going to score a touchdown. But something was wrong. I couldn't run very fast. It seems that I was being held back yet there was no one within ten yards of me. I almost fell and it was then that I discovered my trouble. My pants were falling down. My shoe string belt had broken and that had torn my pants. I ran a few steps and pulled up my pants. I had to use only one hand because I still had the ball. I got to the 25 yard line and had to slow down and pull my pants up again. By this time there were several men after me. I started running again. And my pants started falling again. I couldn't stop now. I had only to go 15 yards. I should have stopped. My pants fell almost to my knees and that tripped me. I hit the ground on the ten yard line.

Everyone stood around staring at me. I tried to get them to gather around and shield me from the stands but they only backed off and that added to my embarrassment. I had to get up, but I couldn't figure out a way to avoid the stares of the crowd.

Rec. and Wreck

By Sheila Bowman

What a week! Monday night the initial event of the week took place in the Rec Room of the Men's dorm. With the lights down low and the music not, each Freshman began to meet and talk with new friends—a process never to end while at Austin Peay. Carolyn Young, Freida Smith, and Stuart Hill were among the greenhorns taking in the situation. Several football players were seen eyeing the crowd.

Tuesday morning came all too soon. After the welcoming assembly, there was a refreshment hour in the Home Ec department. Mrs. Mutton and Sissy Rogers were in charge.

Next, we had another Freshmen assembly. Dean Woodward presided. Dr. Grase, professor of English, let words fly on "Choosing a Vacation." To keep the record straight, maybe we had better say, "Choosing a Vocation." Oh, well. A corresponding talk on "Choosing a Curriculum" was given by Dean Woodward.

About this time we were turned loose to roam at will in the direction of the cafeteria.

At one o'clock we split up into groups for counseling on "Choosing a Curriculum." Next, we went to rooms for counseling on our chosen curriculum. After this, we considered our majors and minors and went to appropriate rooms for advice.

A most welcome break in the day's schedule came via a Coke Party sponsored by the Future Teachers. Jean Haskins and Shirley Acuff were kept pretty busy by the again-hungry Freshmen. The food really vanished while Tom Phillips and Dave Humble-

ger just kept on eating and drinking.

Tuesday night, under the direction of Miss McCure, a Freshmen mixer was held in the gym. Those seen polishing the floor in their stocking feet were Kay Hunt, Marty Chambliss, Paula Ray, Lacy Barte, Gordon Jackson, Jim Gogans, Neil Patterson, and a host of others.

Wednesday dawned a bright and sunny day. First on the day's activities was a split assembly. The girls met with the Dean of Women, Miss Mabel Meacham; the boys met with the Dean of Men, Dr. Tom Savage.

From here we headstallily found our way to the enormous gym to take these notorious orientation tests. But, really, they weren't so bad.

At 2:30 Dean Bowman told us how to go through the line to register Thursday. He said it was simple.

That night there was a talent show in the Stewart Building. Larry Womack emceed the show. Paula Ray put in a top performance with her lute. A combo of eight or nine boys really stirred the audience with lovely, white-pigeon pieces, such as "Rip It Up," "Snake, Rattle, and Roll" and "Mickey's Blues." Old Stewart was actually rocking.

Thursday was pretty well taken care of with registration and appointments for physical examinations.

Friday, the Freshmen again met as a group to finish the testing program. After the English test, it was a mad dash back to the Student Center to buy "A.P." berries before the curtain opened on Freshman initiation. With the upperclassmen back to begin the grind, the Freshmen were worked to death and made

Freshmen Oriented, Entertained

FTA Coke Party

F.T.A. members Jean Haskins and Sherwin Clift are shown serving refreshments to incoming freshmen at the F.T.A. coke party during freshman week.

to bow by their almighty (?) superiors.

At 8:15 that evening a big pep rally was held, kicking off the 1957 Governor football season. Later on, a sock hop was held in the Little Gym, under the leadership of Miss Fitzpatrick, the crowd was kept on its feet. Some of the lively hoppers were Nancy Plummer, Mary Lu Allen, Rosemary

Nichols, Russell McNaught, Bobby McGhee and Doug Stone. Several of the "ancients" at A.P. were there too. Wilma Smith, Jean Fort, Sara Evans, Pat Trammel, L. J. Sanders, Bill Lax, and Ted Potter were conspicuously dressed in normal street clothing, while we Freshmen, wearing our initiation garb, suffered not so silently.

The climax of the week's activities came with game time rolling around Saturday night. The big Governors were ready for the Salskis from Southern Illinois. Even though we came out on the short end of the score, we red-capped Freshmen were proud of the initials "A.P." which stood out so plainly on our crimson beanies.

Law Tests Dates Set

PRINCETON, N.J. The Law School Admission Test required of applicants for admission to a number of leading American law schools, will be given at more than 100 centers throughout the United States on the mornings of November 9, 1957, February 15, April 19, and August 2, 1958. During 1956-57 over 12,000 applicants took this test, and their scores were sent to over 100 law schools.

A candidate must make separate application for admission to each law school of his choice and should inquire of each whether it wishes him to take the Law School Admission Test and when. Since many law schools select their freshman classes in the spring preceding their entrance, candidates for admission to next year's classes are advised ordinarily to take either the November or the February test, if possible.

Test prepared and administered by Educational Testing Service, features objective questions measuring verbal aptitudes and reasoning ability rather than acquired information. It cannot be "crammed" for. Sample questions and information regarding registration for and administration of the test are given in a Bulletin of Information.

The Bulletin (in which an application for the test is inserted) should be obtained four to six

weeks in advance of the desired testing date from Law School Admission Test, Educational Testing Service, 20 Nassau Street, Princeton, New Jersey. Completed applications must be received at least two weeks before the desired testing date in order to allow ETS time to complete the necessary testing arrangements for each candidate.

Tips to All from Don

Welcome to all of the new arrivals to A. P. S. C. We hope that it will prove to be an enjoyable and profitable experience for you. That may sound trite, but we sincerely mean it.

I have heard of all kinds of jobs which were held by APSC students during the summer, from Bible Salesmen to Social Workers. Although it only lasted an hour or so I think I had a pretty good one. I was a judge for a county wide beauty contest. Extremely difficult. Not the judging, getting a date with the winner. Moral: Get the date before the decision is reached.

With football season in full swing around the country and here at APSC it seems a shame that so many students go home on the weekend instead of staying for the game. Not only are you missing a lot of fun, but you are also letting the team down. Last Saturday night the weather was not the best but support was very poor. Less than twenty people from SIU made more noise and cheered more than the home teams entire student body. This week lets all make an extra effort to get out and support our team, as they play Memphis Navy.

The band did a magnificent job at half time last week. They deserve a great deal of credit as do the directors, Mr. Bodine and Mr. Schmidt. In watching them rehearse it was evident that the students are taking pride in their work and the result was terrific.

I read in the paper recently that one of the Southern Colleges had hired a former construction worker as Professor of English. Moral: Even a ditch digger can become an educator in this wonderful country of ours, if he is willing to take the cut in salary.

Civic Theatre Ready For Second

The Clarksville Civic Theatre who thrilled hundreds with its summer production of Medea is at it again. This time it is the delightful three-act comedy "My Three Angles" by Sam and Bella Spewack. The play will be given at Clarksville High School the nights of October 3, 4, 5.

"My Three Angles" is the story of life in a French Prison Colony. Three convicts are detailed to help a local shop keeper at Christmas time. They find themselves mixed up in the personal affairs of the keeper and his family; and amidst hilarious confusion start out to straighten things out. Faith takes care of love and Adolph, a small viper, takes care of the rest.

Cast of "My Three Angles". First Row Left to Right: Olivia Ann Ross, Roland Browne, Paul Crank, Larus Fryer. Second Row: Rand Johnson, Skipper Gray, Bill Brittain.

Governors Drop To Salukas of So. Ill., 25-12

The Salukas of Southern Illinois turned back the Austin Peay Governors 25-12 in a sweep contest that was marred by 10 fumbles.

Carver Shannon, S. I. U. candidate for Little All-American, recovered a fumble on the Governors' 16 with 8:12 left in the second quarter to set the stage for Cecil Hart who plunged over from the two. Shannon missed the extra point.

Austin Peay evened the score when end Leon Smith through Dave Wheeler for a loss as he attempted to punt from his own 41 yard line. A holding penalty on S. I. U. took the ball to the one, and Argenti, soaked over for six, Sowell's attempt for the extra point was wide.

After A. P. kicked off, fullback Charles Hamilton recovered a fumble on the Governors' 40, and capped the drive with a four yard plunge to pay dirt for the Salukas second TD.

Later in the quarter Hamilton gained 37 yards to set up the third S. I. U. TD. Halfback Rabbette Lewis went over standing up from the 2.

Later in the fourth quarter A. P. drove 61 yards, making the bulk of yardage on the ground, with

Captain Noojin Walker going over for the score. Sowell's extra point attempt was again wide.

Speedster Carver Shannon wrapped it up for S. I. U. with a 53 yard dash to pay dirt. He kicked the extra point to make the final score read 25-12.

Sid Ingram, 205 lb. guard from Birmingham, did an excellent job for the Governors as did Ted Potter, former Clarksville ace who averaged 7.6 yards per carry, and Noojin Walker, who was the big gun in the drive for the second Governor touchdown.
