	ROOMS USED OF 44	INCREASE OR DECREASE SINCE LAST REPORT	NOTES
<b>Isolation</b>	6		All in isolation until 8/12/21
<b>Quarantine</b>	0		

### MONTGOMERY COUNTY DATA

Hospitalized	Deaths	Total active cases	% Change active cases	Positive daily cases	% change positive daily cases
0	0	657	+7.9%	77	+31.2%

### ADDITIONAL INFORMATION

- The uptick in positive cases within Athletics is deceiving. Many factors are contributing to the rise in cases, a home exposure, a small group of athletes at a nightclub in Nashville and the team chaplain who did not quarantine after showing symptoms and continued to report to work until the testing lab reopened after the weekend.
- The county has numbers similar to last year at this time. However, we are doubling the number + cases approx. every 7 days over the last 21 days. If this trend continues (BIG if) it could be over 200 cases/day in two weeks. Even if it slows, it looks like it will be 100 cases/day.
- Montgomery County/Clarksville Unified Command reactivated beginning 8/9/21. Kasitz will attend.
